10. **Update:** City of San Fernando's Reservoir Replacement Project. It's been a while since we reached out as there were some delays in the San Fernando Reservoir Replacement Project (13655 Foothill Blvd., Sylmar, near the intersection with Hubbard Street) once the construction/demolition bidding phase began last year. The construction bidding process is moving forward again so we wanted to update you accordingly. We are also reaching out at this time to the LAPD, Senator Hertzberg's office, and affected and neighboring businesses, to advise them. We're happy to reach out further to other individuals or groups you might advise.

Here are our latest estimates for the project timeline:

- a. Potential contractors are bidding on the project now and until mid-February 2022
- b. The San Fernando City Council may award a construction contract about the 3rd week of March 2022
- c. The City of San Fernando may issue a Notice to Proceed to the successful contractor in early May 2022
- d. 12-15 months of demolition and construction will ensue from approximately May 2022 to July 2023

A new development is that as demolition and construction occur later this year, LADOT will require driveway closure (two driveways) on Foothill Blvd. for the Shell gas station and business strip mall located at the corner of Foothill and Hubbard, along with a lane closure and

suspension of street parking along Foothill near the Reservoir property. That means customers and employees of those businesses will have to use the two driveways along Hubbard to access that property and those businesses, and traffic near that intersection will be impacted to an extent. Current plans are to retain the pedestrian sidewalk and bike lane access along Foothill Blvd. You may view the affected location by connecting to this link:

The Stakeholders may comment on any Agenda item only when the item comes up for discussion. The Committee will determine the length of discussion and comment times. The attending stakeholders may be polled for their opinion on any Agenda item before the Committee takes action for a recommendation to the Board. Comments from the stakeholders on other matters not appearing on the agenda that are within the Board’s jurisdiction will be heard during the General Public Comment period.
