Subject: Sylmar Channel Project - Safe Clean Water Program

Dear Committee Members,

On behalf of (insert name of organization), I am writing to express our support for LA Sanitation and Environment's proposed Sylmar Channel Project for funding consideration by the Safe, Clean Water Program (SCWP).

I appreciate LA Sanitation and Environment's public engagement and presenting information on this project at their May 11, 2022, interactive community meeting. I was impressed with the multi-benefit aspects of this project as well as the nature-based solutions it offers. I look forward to working with LASAN during the design phase of this project.

The Sylmar Channel Project will work to provide many benefits to the community. The proposed project will improve the conditions of the current channel allowing enhanced infiltration. The pedestrian path will provide increased access to the surrounding community. The addition of green elements will improve the air quality in the area and reduce the heat island effect. Additionally, this project will reduce localized flooding, provide green elements, create beautiful outdoor spaces, and remove pollutants from the LA River.

We have a tremendous opportunity to showcase how the Safe Clean Water Program can achieve meaningful enhancements to our urban environment and invest in local communities through the Sylmar Channel Project.

We appreciate the City of Los Angeles' dedication to ensuring a safe, clean, and sustainable water future for all Angelenos. We are proud to lend our support to the project.

Thank you for your consideration.

Sincerely,
